

Serving Size Misconceptions

Many underestimate the amount of food eaten and overestimate the recommended portion sizes

Portion: Amount of food you choose to eat for meals or snacks

Serving: Amount of food experts recommend you eat

Fruits and Vegetables

The USDA recommends:

- Eating at least 8-10 servings (half of your plate) of fruits and vegetables daily as part of a 2,000 calorie diet.

2 in 10 reported eating fruits and vegetables \geq 5 times daily (CDC, 2009)
